seminar series

Keeping it in the family

a practical guide to collecting, managing and preserving your family history records

AfL's June seminar will give you the key knowledge and skills to keep the evidence of those favourite family stories safe for future generations.

Janet Foster, archivist and pioneer of Basic Archives Skill Training, will look beyond the usual suspects of births, deaths and marriages with her simple guides to keeping track of family history through identifying, listing and basic indexing.

Illustrating the talk with examples of her own family history records, Janet will also advise on storing and caring for documents, photographs, videos, CDs and digital media.
